### What is a Supplier Guarantee?

A **Supplier Guarantee is a tri-party agreement between Capital Funding Solutions (CFS), you and your supplier, wherein CFS contractually obligates itself to pay the supplier from the proceeds of the factored invoices.** Once we confirm your buyer has received products or services and your company confirms the amount owed, CFS will pay your supplier directly for any goods or services you used to produce the order.

**Every business seeking full-scope financing for sustained business growth should investigate this valuable program.**

A **Supplier-Guarantee Program from CFS accelerates business growth.** This financing option offers businesses nationwide a more flexible and less expensive alternative to purchase-order financing. Companies are able to seize new business opportunities that were not previously achievable, due to a lack of available credit from suppliers, traditional invoice factoring or other business financing sources.

As companies focus on business strategies to grow, there are two main roadblocks that emerge:

1. Consistent cash flow,
2. Available credit from suppliers

A **Supplier-Guarantee Program with CFS bridges the gap, letting you do larger business deals and accelerating your company's growth.**

### Why Use a Supplier Guarantee?

- Financing to accelerate business growth.
- An inexpensive alternative to Purchase-Order Financing and the best way to obtain credit terms from suppliers.
- Additional early payment or bulk purchase discounts can be negotiated by your company.
- Supplier is paid much sooner than ever before.
- Greater access to suppliers worldwide.

#### How It Works
